

# Looking for mentorship? Conference funding? Networking opportunities?

**Attention,  
undergrads through  
junior faculty!**

1. Do you identify as an individual underrepresented in STEM?
2. Are you located at a MSI, HBCU, or TCU?
3. Interested in cancer research (basic science, population health, etc)?
4. To be matched with a mentor and get connected to other program resources, **please complete this survey.**

To learn more about Dr. Henderson's research and to see the complete roster of Training Navigators (mentors), please visit our [website](#).

Questions? Please reach out to Sara Cole [scole2@fredhutch.org](mailto:scole2@fredhutch.org)

**Vida Henderson,  
PhD, PharmD**

"I've had great mentors who have impacted my career trajectory and have taught me not only how to properly **conduct research and write grants and papers**, but have also opened doors for me, cheered for me, **advised me, and valued me.**"

This initiative is supported by an Administrative Supplement to the Fred Hutch/University of Washington/Seattle Children's Cancer Consortium (P30 CA015704).
